BELT COMMANDER

VEHICLE SUMMARY

The Belt Commander is our premier vehicle for hauling equipment between zones; capable of hauling 1000 pounds of tools, utensils, implements, instruments, hardware, and gadgets, the Belt Commander will save you tips, time, and money. Additionally, Its sturdy construction ensures that it will take whatever you can throw at it and continue to function for years on end.

The onboard 48 volt DC charger coupled with energy efficient LED lighting will give you the extra distance you need and its high clearance with a 1500 HP DC motor will get you wherever you need to be safely and quickly.

This small vehicle packs a large punch.
